### **Town Center Security**

We recently experienced an incident at the Town Center where an unauthorized person, with the intent of removing property, was apprehended. In order to protect our residents, the Town Center will be locked each night at 5:30 PM, (unless there is a special event for that evening) and will re-open at 7:15 AM. Access during the lock-down time will require the use of your white swipe card. When the doors are in the locked position, please enter and exit through the doors with the locking mechanism, that is, the front Town Center doors or the kitchen entrance.

All Residents, especially event and activity chairs/co-chairs, are responsible for the security of the building at the end of the event. Make sure all doors to the outside are locked, even the ones to the pool. Also, anyone using a room with outside access is responsible for seeing that the door to the outside is locked (Omni Room to pool, for example). This is our park. Help keep it safe.
